Customer Reviews

An excellent book with plenty of challenging puzzles all related to maps and mazes as expected.

From the back cover I realized this is the first part of a three volumen collection. The only negative points are that the book could be bigger in size and also be reprinted because is hard to find.

I picked this up when I was a child and loved it. The puzzles are really challenging and the story behind the puzzles hooks you in. It really left me wanting more. I hope they make more puzzle books like this! Great illustrations too! It really fed my imagination! Thanks!

Accurate description and wonderful used book.

Great ,thank you so much ,it is book so interesting i love it ,i will be looking for your book again
