Age Range: 4 - 8 years

Grade Level: Kindergarten - 2

## Customer Reviews

This book was a great resource for teaching adaptations during a rainforest unit with 5th graders. It includes a variety of animals and how their physical characteristics help them survive. A+

Excellently written, simple format but informative. My first graders loved them as we studied animal adaptations in different habitats. Could easily be enjoyed by other grades, too. Beautiful photos as well. I recommend all the habitats this series has (I bought 4)!

I used this book for PLTW (Project Lead the Way) Animal Adaptation unit for first grade and it was just perfect.

This whole series is amazing ... we love it
