## Customer Reviews

As an RN, Trauma Nurse Specialist, I found this book to be well written and highly informative. With the speed of modern travel it's also a great reference to have for injuries and illnesses that can occur in far away places that one doesn't see often, or ever in your "home" ED.

As a field geologist, Gulf War veteran and former EMT, I can say that this book is the most comprehensive text I have ever seen regarding outdoor dangers, survival and wilderness medicine. If you work outdoors or spend a lot of time recreating outside, this is a MUST HAVE book!
