Feeling Is The Secret

Synopsis

Your thoughts shape your life, create your reality, and ultimately limit or expand your true potential. Everything from relationships and love, to health and well-being, to wealth and prosperity are directly connected to how you think and what you think about most of the time - for better or for worse. A quick and easy listen, *Feeling is the Secret* describes how our thoughts and feelings affect who we become and what we achieve. When we have the power to change them, we gain the power to change our circumstances, our health, and our life's purpose.

Customer Reviews

When I received *Feeling is the Secret* in the mail from , I was sort of puzzled by the size of the book. However, that puzzled feeling quickly faded into complete amazement as I began to read the words that were written upon its pages. This book, although minimal in page count is full of infinite and bountiful wisdom. The precise way Goddard describes how simplistic our lives were intended to be, as well as how effortless our ability to create desired realities is--left me grinning from ear to ear. As one who has studied life on the quantum level, and who too has thankfully had her eyes opened to the quantum nature of our universe and its connection to a beings consciousness--I was awe struck by how beautifully Goddard made such complex explanations and truths so easy to understand. Not only is Goddard correct about his ideas about how our universe functions, but the poetic way he poses his understandings is nothing short of artistic. More than ever I am so assured that my assumptions about the universe were on mark. I will be eternally grateful for Goddard's book because it helped dust off some of the dust that I had floating around in my own mind about the true

nature of our universe and life as we beings perceive it. In essence--the subconscious mind is the driving force of our realities. Feelings impress sort of blueprints on the subconscious mind. The conscious mind is being run by the subconscious mind and behaviors follow...As a self help author and self awareness coach--the information laid out in this book only enhances my ability to help clients gain more creative control over their personal lives.
