The Isaiah Effect: Decoding The Lost Science Of Prayer And Prophecy

Synopsis

Seventeen hundred years ago, key elements of our ancient heritage were lost, relegated to the esoteric traditions of mystery schools and sacred orders. Among the most empowering of the forgotten elements are references to a science with the power to bring everlasting healing to our bodies and initiate an unprecedented era of peace and cooperation between governments and nations. In his groundbreaking new book, *The Isaiah Effect*, Gregg Braden turns to the Isaiah Scroll, perhaps the most important of the Dead Sea Scrolls discovered in 1946, to offer insight into a powerful form of ancient prayer. In *The Isaiah Effect*, Braden, author of *Awakening to Zero Point* and *Walking Between the Worlds*, combines research in quantum physics with the works of the prophet Isaiah and the ancient Essenes. He demonstrates how prophecies of global catastrophe and suffering may only represent future possibilities, rather than forecast impending doom, and that we have the power to influence those possibilities. In addition to describing multiple futures, the Isaiah texts take us one step further, clearly describing the science of how we choose our futures. Tracing key words of Isaiah's text back to their original language, we discover how he taught a mode of prayer that was lost to the West during Biblical editing in the fourth century. Braden offers detailed accounts of how elements of this mode of prayer have been applied in a variety of situations, ranging from healing life-threatening conditions to entire villages using collective prayer to prevail during the 1998 fires in southern Peru. In each instance, the correlation between the offering of the prayer and a shift of the events in question was beyond coincidence--the prayers had measurable effects! As modern science continues to validate a relationship between our outer and inner worlds, it becomes more likely that a forgotten bridge links the world of our prayers with that of our experience. Each time we engage ourselves, our loved ones, and our communities with Isaiah's life-affirming message of hope, we secure nothing less than our future and the future of the only home we know.

After reading the book, I decided to put this "new" understanding of how to pray to the test. Instead of praying "for" something, with the implied understanding that it does not currently exist in my life... I decided to focus my prayer on the outcome I wanted... and feeling what it felt like to have my desires manifested. Two things happened to me: 1. I started feeling really good. Even though that might not seem like very much, I noticed that by experiencing my desires, in advance, in my mind's eye, in detail, I felt really good and confident that something good would happen. Things have started happening in relation to my prayers. If nothing else, it definitely is changing my outlook for the better... and I am more motivated to receive the desires of my heart. 2. The second thing that has happened to me is that I have experienced a LACK of willingness to visualize in my mind's eye, as sometimes, it is hard to accept that it is I who am responsible for the quality of my life. I mention this second part, because it has also been my experience and I cannot discount it. From a religious perspective, one could say that it is the devil trying to sabotage me (although I have a hard time believing in a literal devil). From my own perspective, though, I simply feel that it is a matter of replacing old habits with new ones. What Gregg Braden writes about, I am living. Please review these parts of his book (hardcover edition): Page 160, 2nd paragraph: "The secret of our lost mode of prayer is to shift our perspective of life by feeling that the 'miracle' has already happened and our prayers have been answered." Pg 166, para 3+ : "When I (the Indian guy, David) was young, our elders passed onto me the secret of prayer.
