The True Story Of The Bilderberg Group

Synopsis

Delving into a world once shrouded in complete mystery and impenetrable security, this investigative report provides a fascinating account of the annual meetings of the world's most powerful people; the Bilderberg Group. Since its inception in 1954 at the Bilderberg Hotel in the small Dutch town of Oosterbeek, the Bilderberg Group has been comprised of European prime ministers, American presidents, and the wealthiest CEOs of the world, all coming together to discuss the economic and political future of humanity. The working press has never been allowed to attend, nor have statements ever been released on the attendees' conclusions or discussions, which have ramifications on the citizens of the world. Using methods that resemble the spy tactics of the Cold War; and in several instances putting his own life on the line; the author did what no one else has managed to achieve: he learned what was being said behind the closed doors of the opulent hotels and has made it available to the public. This second edition includes an entirely new chapter and updated information on topics such as an earlier attempt to break up Canada and the portents of a North American union.

This review is on the 2nd or North American Union Edition of March, 2009. The additions since the first edition bring the Bilderberg meetings up through June, 2008, and author Estulin has added information on Obama's appointments into February, 2009. If the reader is new to the activities of the Bilderbergs, Council for Foreign Relations and the Trilateral Commission, this book is a "must"

read. These organizations are relentlessly pursuing the creation of a New World Order, run by themselves. The common demoninator for these people is that they are wealthy, influential elites, mostly from Europe and the United States who wish to see a Supra-National Socialist World Government wherein national sovereignty is a thing of the past and nations are grouped into regional economic unions like the European Union. Public-Private Partnerships (PPPS) are the vehicle of choice for controlling economic activity, and the Bilderbergs see themselves on both the public and private sides. In the Western Hemisphere they are actively promoting a "North American Union" of the US, Canada (less Quebec) and Mexico. All this is well-documented by the author. With respect to the recent economic crisis, a reader cannot fail to see the hand of Bilderberg Henry Paulson along with Bilderberg Timothy Geithner utilizing Bilderberg Chris Dodd and CFR Barney Frank to help bring about the economic crisis so that they could transfer billions of dollars to other Bilderbergers or their controlled financial institutions and begin building the PPPs so necessary to bring about their cherished goals. Author Estulin makes the point that the Obama Administration is controlled by Bilderbergs, CFR and Trilateral Commission members just like the Bush II Administration. Ahhh, the more things change, the more they stay the same. The model for the North American Union is the EU, and it will be necessary to move the US into much more of a socialist state to bring it into line with Canada and Mexico. Obama has been and will be introducing legislation and policies to form PPPs and move the Federal Government into the private sector and move the US increasingly to Socialism. As the author notes, we may already be past the point of no return although this has not been noted by the public mostly due to the non-reporting of these activities by the media (even Fox News has a blackout on the Bilderbergs, the CFR & the TC.) So why only three stars? Well, the writing is sometimes incoherent, and the author makes a number of statements of fact that are really pretty well founded speculation. He also apparently feels that being a Zionist is somehow meaningful for a New World Order type, and his sketches of the Obama appointees were obviously done in great haste. In addition, the author should omit all the personal cloak and dagger stuff that may be important to him but really detracts from his general treatise. His work would be much more difficult to discredit -- if at all -- if he wouldn't make himself out to be a third-class James Bond saving the world. What is needed here is a scholarly treatment of the subject which certainly can be done from the vast amount of facts now in evidence. Every day the machinations of the Bilderbergs and their associates become more overt. Author Estulin needs to get past the idea that he is attempting to expose Hitler and his designs in 1934 -- it is now 1938 and Hitler has re-armed, re-occupied the Rhineland, announced the formation of the Luftwaffe and taken Austria into the Greater German Reich. Personal travels and difficulties in obtaining information may

be interesting to some people, but they are not important -- what is happening, why, and where it is going is. All that being said, this book should be on the shelf of every American, and readers should start hammering the media for their silence. Bill O'Reilly and Sean Hannity have never mentioned the Bilderbergs on their programs, and that should be a clear indication of the control of Fox by its owner Rupert Murdoch, himself a Bilderberg. If readers want to understand the need for Socialism to accomplish the Supra-National Socialist World Government, read F. A. Hayek's "The Road To Serfdom." Other important works include Ivan Eland's "The Empire Has No Clothes" which describes why the US has continued to expand its empire (and size of the Federal Government and its bureaucracy) even after the fall of the Soviet Union and how this is extremely counter-productive to US security and personal liberty. The US's current foreign policy will hasten its demise, create the ultimate crisis requiring the Bilderberg agenda to restore a modicum of prosperity and remake the world to the Bilderberg design. Like I said, it is really very late in the game. Just a question for the reader: If the US Federal Government subordinates its sovereignty to a Supra-National governing body (like Carter did when he put the US National Park System under the UN) as Obama seems currently intent on doing, can the people revolt without committing treason since the government they are rebelling against is no longer the one established by the US Constitution? Food for thought, indeed. This book is highly recommended, but please work past its many flaws.

This book examines and assesses the covert activities of the Bilderberg Group, a Group which was founded and financed by David Rockefeller and the Rothschild banking empire in 1954, and which took its name from the "Hotel Bilderberg, in Holland, in which its first meeting was held and in which the initial members made their covenant and agreed to meet each following year. In attendance, at that meeting, were one hundred of the world's wealthiest and most powerful men --- all chosen on the basis of their common interests and shared beliefs which tended toward the elimination of nationalism (national sovereignty) and the creation of a World Bank, a one-world socialist government, and a New World Order. They met at Rockefeller's behest to debate, analyze and plan the future of the world, and these are the goals toward which the Bilderberg Group has striven from that day forward. This Group has been shielded from public view for almost its entire existence, which is not surprising since the participants in this "private" enterprise own or control virtually all of the major news media and entertainment outlets in both the U.S. and Europe. As a result, few Americans even know of its existence and far fewer have any idea what it is or what it stands for. That has been good for the Bilderbergers, but not so good for you or for the sovereign nation in which you live. For, whether you know it or not, this covert group has changed your world and your

life and will almost certainly create the world in which your children and grandchildren will live --- and none of it for the better. The book also provides a great deal of information concerning the Bilderbergers' two sister organizations: 1) the Council on Foreign Relations (CFR); a group which was founded in 1921 by the known Marxist, Edward Mandell House, President Woodrow Wilson's chief advisor; and which was funded by John D. Rockefeller, Sr.; and 2) the Trilateral Commission (TC), another group which was founded and financed by David Rockefeller, this time in 1973. Like the Bilderberg Group, these organizations are also "private" entities (non-governmental). But, as the author clearly shows, they share a common ideology and many members with the Bilderbergers, and like that Group have, and have had, a direct bearing on the future of the United States Government, its policies and its people. What makes it even more disconcerting, at least according to this author, is that the vast majority of appointees to virtually all positions of power by every president-elect since Dwight D. Eisenhower, regardless of political party, have been members of one or more of these three "private" organizations. One can't help but wonder, then: Just who is running this nation's government, the elected President (who in all probability was "chosen" and put in office by members of these groups), the Bilderbergers, the CFR, or the Trilateral Commission? And where are we headed? If this seems a little disconcerting, it should! Especially when you consider that these "private" organizations have their own, mostly shared agenda, and, although presumably private entities, count among their members/attendees the likes of Bill Clinton, Paul Wolfowitz, Henry Kissinger, Zbigniew Brzezinski, and Jimmy Carter along with heads of state, businessmen, politicians, bankers and journalists from around the world who, among them, control the means of disseminating, slanting, or not reporting news and information to the American and European people. You'll learn a lot about the Bilderberg Group, the CFR, the TC and the future world in which you'll likely live by reading this book. And, perhaps for the first time, you'll begin to understand how we got where we are today and why the United States has been systematically heading in the wrong direction since 1954. You won't like it, but that's no reason not to read the book. For, if the American people don't soon wake up, we will likely lose our national sovereignty and become slaves to an unelected one-world socialist United Nations government overseen and controlled by the world's international bankers. That's the plan.

Obama, who claimed he would end the wars once he got into office, did the opposite. He put more troops in Afghanistan. True to what the book said, no matter who you vote for, nothing changes. Obama, like Bush, is a Bilderberg puppet. The housing market bubble did burst, sending many people into bankruptcy. He predicted this (actually reported that the Bilderberg's planned this) in the

book. Then, there was the bailout of the richest banks 'to save the country'. This did nothing but give the richest banks even more money so they could buyout or destroy their competition and give executives big bonuses. If they would have given the taxpayers (the ones whose money it really IS) the money, THAT would have stimulated the economy. The trends of this country and world seem to support everything that Daniel Estulin reports in this book. To see WHY we are all heading this way, read the book.

After I read this book, I was shocked! So I took it upon myself to research it myself, The CFR (council of foreign relation), The IMF, The World Bank. The BILDERBERG GROUP itself (googled it). I personally Am not a conspiracy NUT. I never have been and never will be. This is not a conspiracy theory, it IS a Conspiracy. If you can keep an open mind and continue reading you will be much more informed. As I am writing this review they (they, Bildereberg group is meeting in Switzerland). Read the "CREATURE FROM JEKYLL ISLAND" by Edward Griffin. It's A big book but it help's tie everything together. I want to believe everything thing our government tells us, but it simple is not true. It doesn't matter if you are a Democrat or Republican, Liberal or Conservative. The book takes no sides. It simple, if nothing else, Eye Opening.
