Synopsis

ANNE RICE WRITES WITH HER USUAL EROTIC AND HISTORICALLY EVOCATIVE

FLAIR. "Once a proud Senator in Imperial Rome, Marius is kidnapped and forced into that dark realm of blood, where he is made a protector of the Queen and King of the vampires—in whom the core of the supernatural race resides. Through his eyes we see the fall of pagan Rome to the Emperor Constantine, the horrific sack of the Eternal City at the hands of the Visigoths, and the vile aftermath of the Black Death. Ultimately restored by the beauty of the Renaissance, Marius becomes a painter, living dangerously yet happily among mortals, and giving his heart to the great master Botticelli, to the bewitching courtesan Bianca, and to the mysterious young apprentice Armand. But it is in the present day, deep in the jungle, when Marius will meet his fate seeking justice from the oldest vampires in the world. . . .

Bruce P. Grether here, though my partner Tom's name appears on the account. Every time I read one of Anne Rice's books I am seduced and I am pulled through irresistibly... Not long ago I re-entered the VAMPIRE CHRONICLES via PANDORA, with its 2000-year first-person perspective on the world of Anne Rice's beloved characters. Pandora has a bittersweet relationship with the half-Keltoi, half Roman Marius. Despite her inability to live with Marius, it was to his story BLOOD AND GOLD that Pandora brought me, as if by the hand. "His version of things is in its own way as comprehensive as Lestat's," I could almost hear her telling me. In first-person terms, it is even more so because Marius is far older. In Lestat's own accounts it is also Marius who provides much of the

older history. Marius tells his own tale including how he first encountered They Who Must Be Kept so long ago and spent many centuries protecting those parents and originals of all vampires in Anne's mythos. I've so much enjoyed my reunion with Marius, whose account of his own existence forms a kind of common spine of all the CHRONICLES, much as Lestat's do--and yet in this case from Marius's own fantastic perspective. One remarkable thing about Marius's story is his brilliant account of the Renaissance, when he lived in Venice as a painter and discovered Amadeo--someone we know later as Armand--whom he liberates from enslavement, where he would have been sold to a brothel. Let me not provide too many SPOILERS to the delicious intricacies of the plot for the uninitiated... however I especially enjoy how the vampiric Marius clearly delights in providing the beautiful red-haired youth Amadeo with erotic pleasures in his own ways. I am moved and touched all over again as Marius bestows the Dark Gift upon Amadeo to save his life. Their involvement with the lovely Bianca is also likewise delicious and totally plausible, and something of a triad. Towards the end of the novel, Marius himself became a bit long-winded and repetitive, even fussy, for which I would blame Marius de Romanus himself, not Anne! She writes when a story "comes to me like a swarm of bees surrounding my head," she says, and I've also heard her say that at one point she had not intended to write another, but Lestat began to whisper in her ear. Like any great storyteller, her imagination is so strong that the characters come alive, and even take on a life and a distinct voice of their own! I'm always astounded at the sensory details Anne invokes, the richness of settings and atmosphere and the depth of interaction among the characters, the total immersion in place, times, characters that this she achieves every time! Now that I've finished this remarkable journey again, Marius directs to his fledgling Amadeo, AKA Armand. I also recall that for me, THE VAMPIRE ARMAND was the most erotic of these novels, as it became even more clear that though Marius did not make love to Armand as a mortal would, he definitely pleased the young man! Plus I recall that Armand provides his own rich and unique perspectives on everything in these realms. Oh, what a cunning web Ms. Rice weaves! Onward...

I know when a book by Anne Rice is good or not. If it is good, I am not able to stop reading her book. If it isn't like "Merrick" was, then I will stop reading it altogether. "Blood and Gold" was an irresistible read for me. I thoroughly enjoyed every single page in this new installment of the Vampire Chronicles. I was so disappointed in "Merrick" I didn't even bother finish reading it because the storyline was not very compelling for me to read. To see that Anne Rice picked up where she left off with Armand's story with Marius' story I did not hesitate to pick up "Blood and Gold". Most Anne Rice fans would know that we were given a brief glimpse of Marius' life in "The Vampire

Lestat", the second book in the Vampire Chronicles series. "Blood and Gold" delves further into Marius' past which delighted me since he is one of my favorite characters. The reader is introduced to other vampires other than Mael, Pandora and Armand, like Bianca, Euxodia, and Avicus. "Blood and Glory" shows the anguish that Marius went through with his separation from Pandora. I didn't know that in "The Vampire Lestat" or "Queen of the Damned". In fact he was downright obsessive when he was finally reunited with his beloved Pandora. Unlike in the stories about Pandora and Armand, Marius wasn't talking to David Talbot, the former Talamasca leader which was interesting. Instead the reader is introduced to a new character by the name of Thorne who was just as old as Maharet and Mekare, the twin sisters from "Queen of the Damned". Thorne wakes up from his sleep in an icy cave and winds up in a tavern talking to Marius, and eventually moving to Marius' house where Marius tells Thorne his life story. I really enjoyed "Blood and Gold". I rank it as one of my all time favorite books in the Vampire Chronicles. After being disappointed with "Merrick" and somewhat bored (still entertained) with "The Vampire Armand", "Blood and Gold" rekindered my fascination with Anne Rice's popular vampire series. I couldn't put this book down when I first read it.

Blood And Gold is the story of Marius, one of the oldest vampires in the Anne Rice mythology. He's been around since the early days of Rome and he was the creator of the vampires Pandora, Armand and Bianca. He was also the keeper of Enkil and Akasha, the King and Queen of Vampires. Now, his very interesting story - which spans hundreds of centuries - finds its way to the page. I was very excited to get this book. After all, I wanted to read Marius's story in its entirety for so long! But the problem with the book is that we've seen most of this before. Marius has been a prominent character in many of Rice's books; from The Vampire Lestat to The Queen Of The Damned to Pandora to The Vampire Armand... Rice has already told us a lot about Marius in those novels. We already knew half of his story. So we end up with Blood And Gold, a book which is half new and half repetition. Everything that happened in The Vampire Armand is retold through these pages. The book isn't very original. And yet, Rice finds a way to enthrall the readers. Her poetic style of writing is as gripping as ever and her tormented Marius is her most complex and interesting vampire after the beloved Lestat. The book does offer the reader many new exciting moments (such as Marius's encounter with Mael and the making of a young female vampire, as well as the destruction of an all-powerful female vampire). So overall, the book is very interesting and very entertaining. It's just too bad that it leaves you with this sense of *deja vu*.
